# **Kroger Reports Fourth Quarter and Full Year 2013 Results**

Adjusted Q4 EPS of \$0.78 and Full Year 2013 EPS of \$2.85 Q4 ID Sales Up 4.3% Without Fuel

CINCINNATI, March 6, 2014 /PRNewswire/ -- The Kroger Co. (NYSE: KR) today reported net earnings of \$0.81 per diluted share and identical supermarket sales growth, without fuel, of 4.3% in the fourth quarter. The company reported fiscal 2013 net earnings of \$2.90 per diluted share and identical supermarket sales growth, without fuel, of 3.6%.

Kroger's third and fourth quarter net earnings include the benefits of certain tax items partially offset by expenses related to the company's merger with Harris Teeter. Excluding these items, Kroger's adjusted net earnings per diluted share were \$0.78 in the fourth quarter and \$2.85 per diluted share in fiscal 2013 (Table 6).

On a 52-week basis and excluding fiscal 2013 and 2012 adjustment items, as outlined in Table 6, the year's strong results included:

Record net earnings per diluted share

EPS growth of 13%

Increased rolling four quarters FIFO operating margin, excluding fuel, of 11 bps

#### Record FIFO EBITDA

"Our associates' connection with customers fueled another year of market share growth and record earnings per share," said Rodney McMullen, Kroger'schief executive officer. "Kroger's Customer 1<sup>st</sup> strategy is a powerful foundation on which to continue growing and differentiating our business in 2014."

#### **Details of Fourth Quarter 2013 Results**

The Harris Teeter transaction closed on January 28, 2014. Harris Teeter is included in the company's ending balance sheet, but because of the timing late in the year it had no effect on the adjusted fourth quarter or fiscal 2013 earnings.

Kroger reported total sales of \$23.2 billion in the fourth quarter, which ended February 1, 2014. After

adjusting for the extra week in the fourth quarter last year, total sales increased by 4.8%. On this basis and without fuel, total sales increased by 4.4%. Results were enhanced by the company's response to adverse weather in the fourth quarter 2013.

The company recorded a \$9.7 million LIFO charge during the quarter compared to a \$41.2 million LIFO credit in the same quarter last year.

Net earnings for the fourth quarter totalled \$421.9 million, or \$0.81 per diluted share. Excluding the 2013 adjustment items, the extra week, and making the 2012 LIFO credit comparable to the 2013 charge (Table 6), net earnings per diluted share in the fourth quarter grew 10%.

FIFO gross margin increased 11 basis points from the same period last year, excluding retail fuel operations and the extra week.

Operating, general and administrative costs plus rent and depreciation – excluding retail fuel operations, the 2013 adjustment items and the extra week – declined 16 basis points as a percent of sales compared to the prior year's adjusted fourth quarter.

#### Fiscal Year 2013 Results

Kroger reported total sales of \$98.4 billion in fiscal 2013, an increase of 3.9% after adjusting for the 53<sup>rd</sup> week last year. On this basis and excluding fuel, total sales increased 4.2% over the prior fiscal year.

Net earnings for fiscal 2013 totaled \$1.52 billion, or \$2.90 per diluted share. Excluding the fiscal 2013 and 2012 adjustment items (Table 6), net earnings per diluted share for fiscal 2013 grew 13%. Kroger's LIFO charge for fiscal 2013 was comparable to fiscal 2012.

#### **Financial Strategy**

Kroger's strong financial position allowed the company to return more than \$928 million to shareholders through share buybacks and dividends in 2013. During the fiscal year, Kroger repurchased 16.1 million common shares for a total investment of \$609 million.

Capital investments, excluding mergers, acquisitions and purchases of leased facilities, totaled \$2.3 billion for the year, compared to \$2.0 billion in 2012.

Kroger reported a return on invested capital, excluding the Harris Teeter transaction, on a 52-week, rolling four quarters basis, of 13.43%, compared to 13.42% during the same period last year.

Net total debt was \$10.9 billion, an increase of \$2.3 billion from a year ago as a result of the Harris Teeter transaction and, due to the timing late in our fiscal year, Kroger realized no incremental EBITDA in 2013 from this transaction. Therefore, Kroger's net total debt to adjusted EBITDA ratio was 2.43, compared to 2.04 during the same period last year. Kroger remains committed to managing cash flow to achieve a 2.00 – 2.20 net debt to EBITDA ratio over the next 18-24 months.

#### Fiscal 2014 Annual Guidance

Full-year net earnings for fiscal 2014 are expected to range from \$3.14 to \$3.25 per diluted share. This guidance includes Harris Teeter. Growing fiscal 2013 adjusted earnings per diluted share of \$2.85 by the company's long term growth rate of 8-11% equates to a range of \$3.08 to \$3.16 per diluted share. Adding net accretion to earnings from the Harris Teeter merger of \$0.06 - \$0.09 per

diluted share, excluding transition and transaction expenses, results in a 10 - 14% growth rate for fiscal 2014. Thereafter, Kroger expects to return to its long-term growth rate of 8 - 11%.

Shareholder return will be further enhanced by a dividend expected to increase over time.

Kroger anticipates identical supermarket sales growth, excluding fuel, of approximately 2.5% to 3.5% for fiscal 2014, including Harris Teeter. This range takes into account the expectation of low inflation during the year.

During fiscal 2014, Kroger plans to use cash flow from operations to maintain its current investment grade debt rating, repurchase shares, have a growing dividend, and fund capital investments. The company expects capital investments to be in the \$2.8 to \$3.0 billion range for the year, including Harris Teeter.

"The remarkable consistency of Kroger's performance has shown time and again that serving our customers is serving our shareholders," Mr. McMullen said. "We are well positioned to continue delivering sustainable high performance that benefits our customers and shareholders today and in the future."

Kroger, one of the world's largest retailers, employs more than 375,000 associates who serve customers in 2,640 supermarkets and multi-department stores in 34 states and the District of Columbia under two dozen local banner names including Kroger, City Market, Dillons, Food 4 Less, Fred Meyer, Fry's, Harris Teeter, Jay C, King Soopers, QFC, Ralphs and Smith's. The company also operates 786 convenience stores, 320 fine jewelry stores, 1,240 supermarket fuel centers and 38 food processing plants in the U.S. Recognized by Forbes as the most generous company in America, Kroger supports hunger relief, breast cancer awareness, the military and their families, and more than 30,000 schools and grassroots organizations. Kroger contributes food and funds equal to 200 million meals a year through more than 80 Feeding America food bank partners. A leader in supplier diversity, Kroger is a proud member of the *Billion Dollar Roundtable* and the U.S. Hispanic Chamber's *Million Dollar Club*.

-----

Note: Fuel sales have historically had a low FIFO gross margin rate and OG&A rate as compared to corresponding rates on non-fuel sales. As a result Krogerdiscusses the changes in these rates excluding the effect of retail fuel operations.

This press release contains certain forward-looking statements about the future performance of the company. These statements are based on management's assumptions and beliefs in light of the information currently available to it. These statements are indicated by words such as "expect," "guidance" and "plans."

Various uncertainties and other factors could cause actual results to differ materially from those contained in the forward-looking statements. These include the specific risk factors identified in our annual report on Form 10-K for our last fiscal year and any subsequent filings, as well as the following:

Our ability to achieve sales, earnings and cash flow goals may be affected by: labor negotiations or

disputes; changes in the types and numbers of businesses that compete with us; pricing and promotional activities of existing and new competitors, including non-traditional competitors, and the aggressiveness of that competition; our response to these actions; the state of the economy, including interest rates, the inflationary and deflationary trends in certain commodities, and the unemployment rate; the effect that fuel costs have on consumer spending; changes in governmentfunded benefit programs; manufacturing commodity costs; diesel fuel costs related to our logistics operations; trends in consumer spending; the extent to which our customers exercise caution in their purchasing in response to economic conditions; the inconsistent pace of the economic recovery; changes in inflation or deflation in product and operating costs; stock repurchases; the effect of brand prescription drugs going off patent; our ability to retain additional pharmacy sales from third party payors; natural disasters or adverse weather conditions; the success of our future growth plans; and the successful integration of Harris Teeter. The extent to which the adjustments we are making to our strategy create value for our shareholders will depend primarily on the reaction of our customers and our competitors to these adjustments, as well as operating conditions, including inflation or deflation, increased competitive activity, and cautious spending behavior of our customers. Our ability to achieve sales and earnings goals may also be affected by our ability to manage the factors identified above.

Our ability to use free cash flow to continue to maintain our investment grade debt rating and repurchase shares, pay dividends, and fund capital investments, could be affected by unanticipated increases in net total debt, our inability to generate free cash flow at the levels anticipated, and our failure to generate expected earnings.

Our capital investments could differ from our estimate if we are unsuccessful in acquiring suitable sites for new stores, if development costs vary from those budgeted, if our logistics and technology or store projects are not completed on budget or within the time frame projected, or if economic conditions fail to improve, or worsen.

We assume no obligation to update the information contained herein. Please refer to Kroger's reports and filings with the Securities and Exchange Commission for a further discussion of these risks and uncertainties.

Note: Kroger's quarterly conference call with investors will be broadcast live online at 10 a.m. (ET) on March 6, 2014 at ir.kroger.com. An on-demand replay of the webcast will be available from approximately 1 p.m. (ET) Thursday, March 6 through Thursday, March 20, 2014.

Ν

- ot The Company defines FIFO gross profit as sales minus merchandise costs, including advertising, warehousing and
- e: transportation, but excluding the Last-In First-Out (LIFO) charge.

The Company defines FIFO gross margin, as described in the earnings release, as FIFO gross profit divided by sales.

The Company defines FIFO operating profit as operating profit excluding the LIFO charge.

The Company defines FIFO operating profit margin, as described in the earnings release, as FIFO operating profit divided by sales.

The above FIFO financial metrics are important measures used by management to evaluate operational effectiveness.

Management believes these FIFO financial metrics are useful to investors and analysts because they measure our day-today operational effectiveness.

- (a Merchandise costs and operating, general and administrative expenses exclude depreciation expense and rent expense
- ) which are included in separate expense lines.
- (b LIFO charges (credits) of \$10 and \$(41) were recorded in the fourth quarter of 2013 and 2012, respectively. For the year
- ) to date period, LIFO charges of \$52 and \$55 were recorded for 2013 and 2012, respectively.

Note: Certain prior-year amounts have been reclassified to conform to current-year presentation.

#### **Table 4. Supplemental Sales Information**

(in millions, except percentages)

(unaudited)

Items identified below should not be considered as alternatives to sales or any other GAAP measure of performance. Identical supermarket sales is an industry-specific measure and it is important to review it in conjunction with Kroger's financial results reported in accordance with GAAP. Other companies in our industry may calculate identical sales differently than Kroger does, limiting the comparability of the measure.

#### **IDENTICAL SUPERMARKET SALES (a)**

		FOURTH (	QUARTE	R		YEAR-T	TO-DATE	
	:	2013		2012 (b) 2013		2013		012 (b)

CENTERS		4.0%		3.5%		3.3%		4.5%
EXCLUDING FUEL								
CENTERS		4.3%		3.0%		3.6%		3.5%

) Kroger defines a supermarket as identical when it has been open without expansion or relocation for five full quarters.

) Identical sales for the fourth quarter of 2012 and year-to-date 2012 were adjusted to a 12 and 52 week basis, respectively.

## Table 5. Reconciliation of Total Debt to Net Total Debt and Net Earnings Attributable to The Kroger Co. to Adjusted EBITDA

(in millions, except for ratio)

(unaudited)

(a

(b

The items identified below should not be considered an alternative to any GAAP measure of performance or access to liquidity. Net total debt to adjusted EBITDA is an important measure used by management to evaluate the Company's access to liquidity. The items below should be reviewed in conjunction with Kroger's financial results reported in accordance with GAAP.

The following table provides a reconciliation of total debt to net total debt.

		Feb	ruary

Table 6. Net Earnings Per Diluted Share Excluding the Adjustment Items

### (in millions, except per share amounts) (unaudited)

The purpose of this table is to better illustrate comparable operating results from our ongoing business, after removing the effects on net earnings per diluted common share of certain items described below. Items identified in this table should not be considered alternatives to net earnings attributable to The Kroger Co. or any other GAAP measure of performance. These items should not be reviewed in isolation or considered substitutes for the Company's financial results as reported in accordance with GAAP. Due to the nature of these items, as further described below, it is important to identify these items and to review them in conjunction with the Company's financial results reported in accordance with GAAP.

The following table summarizes items that affected the Company's financial results during the periods presented. In 2013, these items include the benefit from certain tax items and expenses related to the merger with Harris Teeter. In 2012, these items include a reduction to the Company's UFCW consolidated pension plan liability and the receipt of a credit card litigation settlement payments.

#### Table 7. Return on Invested Capital

(in millions, except percentages)

(unaudited)

Return on invested capital should not be considered an alternative to any GAAP measure of performance. Return on invested capital is an important measure used by management to evaluate our investment returns on capital and our effectiveness in deploying our assets. Return on invested capital should not be reviewed in isolation or considered as a substitute for our financial results as reported in accordance with GAAP. Other companies may calculate return on invested capital differently than Kroger, limiting the comparability of the measure.

The following table provides a calculation of return on invested capital for 2013 and 2012 on a 52 week basis and excluding the assets and liabilities recorded at year end for Harris Teeter.

		YEAR-TO-DATE			
	February 1, 2014		February 2, 2013		
Return on Invested Capital					
Numerator (a)					
Operating profit on a 53 week basis in fiscal year 2012	\$	2,725	\$	2,764	
53rd week operating profit adjustment		-		(100)
