CURRENT REPORT

Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

Date of Report: **October 11, 2017**
(Date of earliest event reported)

THE KROGER CO.

(Exact name of registrant as specified in its charter)

Ohio
(State or other jurisdiction
of incorporation)

No. 1-303
(Commission File Number)

31-0345740
(IRS Employer
Identification No.)

**1014 Vine Street
Cincinnati, OH 45202**
(Address of principal executive offices, including zip code)

Registrant's telephone number, including area code: **(513) 762-4000**

Check the appropriate box below if the Form 8-K filing is intended to simultaneously satisfy the filing obligation of the registrant under any of the following provisions:

- Written communications pursuant to Rule 425 under the Securities Act (17 CFR 230.425)
- Soliciting material pursuant to Rule 14a-12 under the Exchange Act (17 CFR 240.14a-12)
- Pre-commencement communications pursuant to Rule 14d-2(b) under the Exchange Act (17 CFR 240.14d-2(b))
- Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Indicate by check mark whether the registrant is an emerging growth company as defined in Rule 405 of the Securities Act of 1933 (§230.405 of this chapter) or Rule 12b-2 of the Securities Exchange Act of 1934 (§240.12b-2 of this chapter).

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Item 7.01 Regulation FD Disclosure.

In connection with its Investor Conference held on October 11, 2017, The Kroger Co. issued a press release confirming its fiscal 2017 annual guidance. The net earnings per diluted share and adjusted net earnings per diluted share guidance include the effects from the 2017 named hurricanes, but exclude one-time expenses expected to be recognized upon settlements of a Company-sponsored pension plan later this year. ID sales guidance includes the effect of the 2017 named hurricanes.

In addition, we disclosed that as a result of a review of assets that are potentially of more value outside of the company than as part of Kroger, the Company has decided to explore strategic alternatives, including a potential sale, of its convenience store business. Considering the current premium multiples for convenience stores, we feel it is our obligation as a management team to undertake this review.

Attached hereto as Exhibit 99.1, and filed herewith, is a copy of that release.

Fiscal 2017 Guidance

<u>Identical supermarket sales (excluding fuel sales)</u>	We expect identical supermarket sales growth, excluding fuel, of 0.5% to 1.0% for the remainder of fiscal 2017.
<u>Net earnings per diluted share</u>	We expect net earnings to be \$1.74 to \$1.79 per diluted share for 2017, which includes an estimated \$.09 for the 53 rd week. We expect 2017 adjusted net earnings per diluted share to be \$2.00 to \$2.05, including the 53 rd week and excluding charges related to the withdrawal liability for certain multi-employer pension funds and a voluntary retirement offering (the “2017 adjustment items”).
<u>Non-fuel FIFO operating margin</u>	We expect full-year FIFO operating margin in 2017, excluding fuel, the 2017 adjustment items and the 2016 restructuring of certain multi-employer pension obligations, to decline approximately 30-40 basis points compared to 2016 results.
<u>Capital investments</u>	We expect capital investments, excluding mergers, acquisitions and purchases of leased facilities, to be \$3.0 to \$3.3 billion. These capital investments include investments in digital and technology; approximately 55 major projects covering new stores, expansions and relocations; 175 major remodels; and other investments including minor remodels, and upgrades to logistics, merchandising systems and infrastructure to support our Customer 1 st business strategy.
<u>Supermarket square footage growth</u>	Approximately 1.8% before mergers, acquisitions and operational closings.
<u>Expected tax rate</u>	We expect the 2017 tax rate to be approximately 35%, excluding the resolution of certain tax items and effects from the 2017 adjustment items.
<u>Product Cost Inflation/LIFO</u>	We anticipate product cost, without fuel, to be inflationary in 2017 and a LIFO charge of approximately \$80 million.
<u>Pension Contributions/Expenses</u>	<u>Company-sponsored pension plans</u> We expect 2017 Company-sponsored pension plans expense to be approximately \$90 million. Although we were not required to make a cash contribution in 2017, in the third quarter of 2017, we made a \$1 billion (\$650 million after-tax) contribution to the plan that will significantly address the underfunded position of the plan. We do not expect to make any additional contributions to the plan. In addition, we expect there will be a settlement charge in the fourth quarter of 2017 associated with the

settlement of the Company-sponsored pension plan obligations for eligible participants’ pension balances that are distributed out of the plan via a transfer to other qualified retirement plan options or a lump sum payout, based on each participant’s election.

In addition, there will be a one-time expense in 2017 associated with the settlement of the Company’s obligations for the eligible participants’ pension balances that are distributed out of the plan via a transfer to other qualified retirement plan options or a lump sum payout, based on each participant’s election.

Multi-employer plans

In 2017, we expect to contribute approximately \$360 million to multi-employer pension funds, which excludes any additional multi-employer restructuring or withdrawal liabilities that could occur. Of this amount, \$35 million has been accrued for as of year-end. Although these liabilities are not a direct obligation or liability for Kroger, any new agreements that would commit us to fund certain multi-employer plans will be expensed when our commitment is probable and an estimate can be made.

Labor

We are currently negotiating an agreement with the UFCW for store associates in Food 4 Less Warehouse Stores, with the UFCW for store associates in Charleston, West Virginia, and with the Teamsters for the Master Agreement. Negotiations this year will be challenging as we must have competitive cost structures in each market while meeting our associates’ needs for solid wages and good quality, affordable health care and retirement benefits. Also, continued long-term financial viability of our current Taft-Hartley pension plan participation is important to address.

Initial Guidance for 2018

- We are early in the planning process.
- We are striving for EPS to be flat to slight growth from 52-week 2017 adjusted results.
- We are not seeing anything that would cause us to be below \$1.80.
- We expect the full year ID sales to be stronger than 2017.
- We expect capital expenditures of approximately \$3 billion.

Investor Conference

Kroger will host an investor conference today in New York. A webcast and slide presentation will be available live online from 9:00 a.m. to approximately 2:00 p.m. (ET) at ir.kroger.com.

Forward Looking Statements

This Current Report contains certain statements that constitute “forward-looking statements” about the future performance of The Kroger Co. These statements are based on management’s assumptions and beliefs in light of the information currently available to it. Such statements are indicated by words such as “believe,” “guidance,” “expect,” “estimate,” “anticipate,” “will,” “would,” “could,” “consider,” “committed,” and “continue.” Various uncertainties and other factors could cause actual results to differ materially from those contained in the forward-looking statements. These include the specific risk factors identified in “Risk Factors” and “Outlook” in our annual report on Form 10-K for our last fiscal year and any subsequent filings, as well as the following:

3

-
- The extent to which our sources of liquidity are sufficient to meet our requirements may be affected by the state of the financial markets and the effect that such condition has on our ability to issue commercial paper at acceptable rates. Our ability to borrow under our committed lines of credit, including our bank credit facilities, could be impaired if one or more of our lenders under those lines is unwilling or unable to honor its contractual obligation to lend to us, or in the event that natural disasters or weather conditions interfere with the ability of our lenders to lend to us. Our ability to refinance maturing debt may be affected by the state of the financial markets.
 - Our ability to achieve sales, earnings and cash flow goals may be affected by: labor negotiations or disputes; changes in the types and numbers of businesses that compete with us; pricing and promotional activities of existing and new competitors, including non-traditional competitors, and the aggressiveness of that competition; our response to these actions; the state of the economy, including interest rates, the inflationary and deflationary trends in certain commodities, and the unemployment rate; the effect that fuel costs have on consumer spending; volatility of fuel margins; changes in government-funded benefit programs; manufacturing commodity costs; diesel fuel costs related to our logistics operations; trends in consumer spending; the extent to which our customers exercise caution in their purchasing in response to economic conditions; the inconsistent pace of the economic recovery; changes in inflation or deflation in product and operating costs; stock repurchases; our ability to retain pharmacy sales from third party payors; consolidation in the healthcare industry, including pharmacy benefit managers; our ability to negotiate modifications to multi-employer pension plans; natural disasters or adverse weather conditions; the potential costs and risks associated with potential cyber-attacks or data security breaches; the success of our future growth plans; and the successful integration of Harris Teeter and Roundy’s. Our ability to achieve sales and earnings goals may also be affected by our ability to manage the factors identified above. Our ability to execute our financial strategy may be affected by our ability to generate cash flow.
 - During the first three quarters of each fiscal year, our LIFO charge and the recognition of LIFO expense is affected primarily by estimated year-end changes in product costs. Our fiscal year LIFO charge is affected primarily by changes in product costs at year-end.
 - If actual results differ significantly from anticipated future results for certain reporting units including variable interest entities, an impairment loss for any excess of the carrying value of the reporting units’ goodwill over the implied fair value would have to be recognized.
 - Our effective tax rate may differ from the expected rate due to changes in laws, the status of pending items with various taxing authorities, and the deductibility of certain expenses.
 - Changes in our product mix may negatively affect certain financial indicators. For example, we continue to add supermarket fuel centers to our store base. Since fuel generates lower profit margins than our supermarket sales, we expect to see our FIFO gross margins decline as fuel sales increase.

Section 2: EX-99.1 (EX-99.1)

Exhibit 99.1

Kroger Outlines Plan to Redefine the Way America Eats and to Deliver Value for Customers & Shareholders

Kroger's plan to create value for shareholders focuses on redefining the food & customer experience through digital and technology, expanding partnerships to create customer value, developing talent, and creating social impact

Kroger reaffirms 2017 guidance, including:

- *Identical supermarket sales growth of 0.5 to 1.0%, excluding fuel, for the remainder of 2017.*
- *Net earnings of \$1.74 to \$1.79 per diluted share, including an estimated \$.09 for the 53rd week.*
- *Adjusted net earnings of \$2.00 to \$2.05 per diluted share, including the 53rd week and excluding charges related to the withdrawal liability for certain multi-employer pension funds and a voluntary retirement offering (the "2017 adjustment items").*

Please see 8-K filed today for additional guidance information.

CINCINNATI, October 11, 2017 — The Kroger Co. (NYSE: KR) today will announce its plan to redefine the food and grocery customer experience in America, called *Restock Kroger*, during its annual Investor Conference.

"We know that when we serve America through food inspiration and uplift, we create value for our shareholders, customers and associates," said Rodney McMullen, Kroger's chairman and CEO. "We understand that today's marketplace is shifting rapidly. Kroger's success has always depended on our ability to proactively address changes by focusing relentlessly on our customers. We have the scale, the data, physical assets and human connection to win. Combining our food expertise and data analytics uniquely positions Kroger to create new and highly-relevant customer experiences, delivered both digitally and in stores. *Restock Kroger* builds on our strengths and strategically repositions Kroger to accelerate our customer-centered efforts in order to create shareholder value."

The *Restock Kroger Plan* will be fueled by capital investments, cost savings and free cash flow.

The Plan has four main drivers: Redefine the Food and Grocery Customer Experience, Expand Partnerships to Create Customer Value, Develop Talent, and Live Kroger's Purpose. The company will regularly update investors on its progress against these pillars, which collectively will create shareholder value.

Redefine the Food and Grocery Customer Experience: Kroger will outline how it is uniquely positioned to win with customers by accelerating its digital and ecommerce efforts, applying its customer data and personalization expertise through 84.51 to even more aspects of the business, and building on the outstanding growth of the company's *Our Brands* portfolio.

- **Data & Personalization:** Kroger already delivers more than 3 billion personalized recommendations to customers annually. Kroger will update investors on how it is using shopper data to create different experiences for customers.
- **Digital:** Kroger will outline how it is optimizing the digital experience by placing the customer at the center of everything we do, providing not only functional information but also inspiration and personalized discovery through recipes and product content.
- **Space Optimization:** Kroger intends to leverage customer science to make space-planning decisions to disrupt shelf, optimize assortment and improve in-stocks.
- **Our Brands:** Building on *Our Brands* strong, 37% growth from 2011 to 2017 (from \$15B to \$20.5B in annual sales), Kroger will continue investing to grow its most popular brands.
- **Smart Pricing:** Kroger will continue investing to avoid losing customers because of price. The company has invested more than \$4 billion in price since 2001.

Expand Partnerships to Create Customer Value: The company will discuss its plans to utilize more of its capital to fund technology and infrastructure upgrades, and its intention to create alternative revenue streams.

- **Front End Transformation:** Redesign front-end to maximize stores for self-checkout, include expanding currently 20-store Scan, Bag, Go pilot to 400 stores in 2018.
- **Technology Innovation:** Kroger will continue building its Internet of Things sensor network, video analytics and machine learning networks and complement those innovations with robotics and artificial intelligence to transform the customer experience.
- **Alternative Revenue Streams:** Kroger intends to create shareholder value by expanding its alternative revenue streams, including driving media and advertising revenue.

Develop Talent: Kroger will discuss how it is accelerating its high-performance leadership culture through future talent development, training, and a rebalancing of pay & benefits.

- **Investing in Store Associates:** Kroger plans to invest an incremental \$500 million in human capital over the next three years. This will be in addition to the company's continued efforts to rebalance pay and benefits while also focusing on certifications and performance incentives, career opportunities and training.

Live Kroger Purpose through Social Impact: The company successfully launched its Zero Hunger | Zero Waste Plan in September, which aims to end hunger in the communities Kroger calls home and eliminate waste in the company by 2025.

Incremental Operating Margin, Capital to Support Growth, Free Cash Flow

The Restock Kroger plan is expected to generate \$400 million in incremental operating margin by 2020. Kroger will also outline how it will prioritize its estimated \$9 billion in capital investments to support Restock Kroger over the next three years. The company expects to generate more than \$4 billion of free cash flow over the next three years — nearly double what was generated over the previous three years.

“Our goal is to continue generating shareholder value even as we make strategic investments to grow our business,” said Mike Schlotman, Kroger's executive vice president and CFO.

Exploring Strategic Alternatives for Convenience Store Business

Kroger today announced its intention to explore strategic alternatives for its convenience store business, including a potential sale. This is the result of a review of assets that are potentially of more value outside of the company than as part of Kroger.

“Our convenience stores are strong, successful and growing with the potential to grow even more,” said Mr. Schlotman. “We want to look at all options to ensure this part of the business is meeting its full potential. Considering the current premium multiples for convenience stores, we feel it is our obligation as a management team to undertake this review.”

Kroger's convenience store business includes 784 convenience stores located across 18 states. It includes 68 franchise operations. The stores employ 11,000 associates and operate under the following banner names: Turkey Hill Minit Markets, Loaf 'N Jug, KwikShop, Tom Thumb and QuickStop. Neither supermarket fuel centers nor Turkey Hill Dairy is included in this review. Kroger's convenience store business generated revenue of \$1.4 billion and sold 1.2 billion gallons of fuel in 2016. The business unit has delivered 62 consecutive quarters of identical store sales growth.

“Our convenience store management and associates are an important part of our success. They put our customer first every day. We value what they do and thank them for what they will continue to do as we conduct this evaluation,” Mr. Schlotman said.

The company has hired Goldman Sachs & Co. to identify, review and evaluate the options.

With respect to 2018, the company expects identical supermarket sales to be stronger than 2017. For earnings per diluted share, the company is striving for flat to slightly-up from 52 week adjusted 2017 earnings per diluted share. While early in the planning process, the company further noted that it doesn't see anything in the environment that would cause 2018 earnings per diluted share to be below \$1.80.

Investment Thesis

Mr. McMullen will also outline Kroger's investment thesis.

"We feel great about our strengths. As America's grocer, we are growing in a fragmented market. Kroger has more data than any of our competitors, which leads to deep customer knowledge and unparalleled personalization. We have incredibly convenient locations and platforms for pickup and delivery within one-to-two miles of our customers. We have a leadership team that combines deep experience with creative new talent. We have the scale to win with more than 60 million households shopping with us annually. In fact, we've been named America's most beloved grocery store several times. We connect personally with our associates, customers and communities to uplift and improve lives. And, we have a proven track record of consistently returning capital to shareholders through an increasing dividend and share buyback program."

"We believe our best days are ahead of us," he said.

At The Kroger Co., we are dedicated to our purpose: to **Feed the Human Spirit**TM. We are 450,000 associates who serve nearly nine million customers daily in 2,793 retail food stores under a variety of local banner names in 35 states and the District of Columbia. Our Family of Companies operates an expanding ClickList offering — a personalized order online service — in addition to 2,258 pharmacies, 783 convenience stores, 307 fine jewelry stores, 222 retail health clinics, 1,472 supermarket fuel centers and 38 food production plants in the United States. Our Company has been recognized as one of America's most generous companies for our support of more than 100 Feeding America food bank partners, breast cancer research and awareness, the military and their families, and more than 145,000 community organizations including schools. As a leader in supplier diversity, we are a proud member of the *Billion Dollar Roundtable*.
